## MY VOLUNTEER EXPERIENCE

*Eleanor Kim*

I had a really good time working with Hilltop last Friday! My experience volunteering really opened my eyes to the surrounding community of New Brunswick. As an incoming transfer student, I'm still trying to become acclimated and accustomed to the Rutgers community while staying at home in addition to navigating the pandemic and current climate. That being said, my time with the other volunteers reminded me that organizations like Hilltop are filled with people who are dedicated to serving their community.

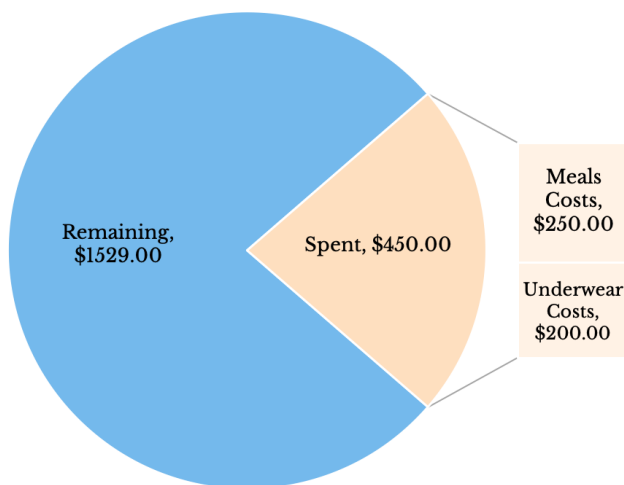

## WORKING WITH THE COMMUNITY

*Sungjae Lee*

In the first three months of our existence, we have established key external connections that will assist in taking us a step closer to our mission of eradicating homelessness in New Brunswick.

We have been able to create several relationships with local Rutgers affiliated churches and with this, we will have a steady supply of volunteers as well as financial support. Furthermore, we have a bond with a pharmacy club called AMCP and we plan to explore opportunities in patient care by providing them with health screenings/education about healthcare. Lastly, we are currently in talks with several Rutgers Greek life organizations and service organizations. This will take us closer to our mission of destigmatizing the homeless with the members of New Brunswick, while building personal relationships with them. I am very much looking forward to what we can accomplish in the next coming school year with the devoted team we have!

## FINANCIAL UPDATES

As of September 2020, Hilltop Embrace has currently raised \$1979 and has \$1529 remaining.

The homeless community often lacks access to clean underwear, jeopardizing their hygiene and comfort. \$200 worth of clean underwear was purchased and donated.
